Cushioning impact of water crisis through rainwater harvesting

Dear Heather,

Spring is almost here and we have a lot of exciting events coming up this season! Visit our calendar of events and see what's coming up in your area to keep up to date with the latest rainwater harvesting industry best practices: **View the ARCSA Calendar**.

ARCSA NEWS

Show Off Your RWH System

Do you have a rainwater harvesting system in one of our upcoming workshop locations? **Let us know!** We would like to incorporate tours of local rainwater harvesting systems into future workshops. Take a look at **our calendar here**, and **send us an email** if you are an ARCSA member and would like to showcase your system.

Sell & Shop on eBay to Support ARCSA!

Now you can support ARCSA by buying & selling goods on eBay. ARCSA has been accepted by eBay Giving Works and PayPal Giving Fund and as a result, third parties can do what is called "Community" selling.

help finding suppliers and vendors that specialize in supplying products and services to our industry. The new ARCSA Resource Guide is your chance to get in front of everyone looking for rainwater related resources. While the ARCSA Resource Guide is new, our hope is for this Guide to expand to all states and become the go-to Resource for all needs related to rainwater catchment in the U.S. and neighboring countries.

Tennessee Home is 100% Dependent on Rainwater

Post from Water Quality Products
Aaron and Rebecca Howald of Franklin, TN, are busy professionals - she an attorney and he an executive for a national building products company. Their home site outside of Nashville might not have been buildable were it not for rainwater harvesting - it is distant from municipal water supplies, and wells in the area can be problematic. The picturesque site does receives an average of 51 in. of annual rainfall. Figuring out how to capture and use that rain became a project of Knoxville, Tennessee-based Rainwater Resources [an ARCSA member].

Pioneer WaterTank

Pioneer® Water Tanks are the most popular choice for rainwater harvesting systems where quality, aesthetics, and hygiene are the deciding factors. Our exclusive Aqualiner® tank liner is NSF61 certified for drinking water and imparts no taste or smell in the water. Pioneer® Tanks are built stronger to last longer.

Workshop: Designing & Building RWH Systems for Realtors & Related Professionals

March 19, 2015 @ 3 PM

The US Green Building Council Keys Branch presents a workshop on Designing & Building RWH Systems for the Key West Association of Realtors. The focus of the workshop will be the history, revitalization, and new technology in building healthy, contaminant-free cisterns. The workshop will be held at 3422 Duck Avenue, Key West, FL on March 19, 2015 from 3-4 PM. For more information, contact Yadiris Wood at 305.296.8259 or **visit the USGBC Keys Branch website here**.

Thank You, Workshop Sponsors!

ARCSA would like to thank **GrowWater** and **Rainwater Solutions** for their sponsorships of the Davis, California Accredited Professional Workshop in March.
